

**MagnaDrive™ Exhibits at WEFTEC 2015, Chicago, Sept 28-30 2015.**

WOODINVILLE, Washington, September 15, 2015 – MagnaDrive is proud to be presenting its latest range of permanent magnet coupling and speed drive technology at this year's WEFTEC in Chicago, IL.

**Come See MagnaDrive at Booth 145**

The 2015 Water Environment Federation's Annual Technical Exhibition and Conference, is the largest conference of its kind in North America. Being held at Chicago's McCormick Place provides a world-class venue to showcase the latest in water quality innovation and technology.

This year MagnaDrive will be showcasing its ground breaking Adjustable Speed Drive system. "Our ASD offers vibration and misalignment mitigation along with energy savings up to 70% when applied between the motor and pumping systems" commented Paul Humphreys, Senior Vice President, adding, "we will also be introducing our new EMAX™ coupling, which delivers the same mechanical benefits as the ASD together with energy savings in the range of 10%-20% for constant speed loads up to 900hp."

**About MagnaDrive Corporation**

Founded in 1999, in Seattle Washington MagnaDrive's groundbreaking magnetic torque-transfer couplings and speed drives provide highly effective means of protecting critical equipment and processes. Beyond the mechanical benefits of MagnaDrive's technology, also has the ability to achieve significant energy savings. MagnaDrive serves multiple markets, around the world including power generation, mining, oil and gas, maritime, the U.S. Navy, water and wastewater, HVAC, and general manufacturing.
